Security & Firefighting Risks

Intruder Product of the Year

Ajax believes that people shouldn't have to live in fear in today's world. Our continually evolving security system gives people peace of mind. When you're under the reliable protection of Ajax, you're safe from thieves, fires or leaks that can cause real harm to property and people.

Control Panels

Hub is the control panel of a security system. The hub manages all Ajax devices, operates security modes, and in case of a threat, notifies an alarm response center as well as you.

Hub 2

Security system control panel supporting photo verification of alarms

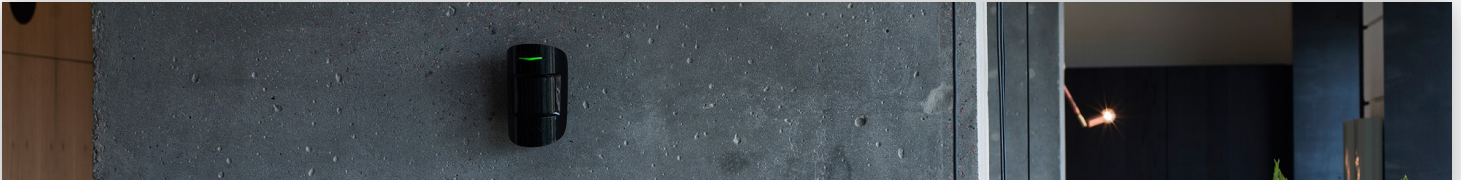

- Ethernet/ Dual 4G
- Up to 100 devices
- Up to 25 cameras or DVRs
- Up to 5 ReX range extenders
- Up to 50 users

Hub 2 Plus

Security system control panel supporting photo verification of alarms

- Ethernet, Wi-Fi/2Dual G/3G/4G
- Up to 200 devices
- Up to 100 cameras or DVRs
- Up to 5 ReX range extenders
- Up to 200 users

Motion detectors

Ajax wireless motion sensors detect intruders from the first steps, whether outdoors or indoors. When an attacker enters the field of view of the PIR sensor, the detector analyzes the body's thermal radiation, making sure that it is a human, and then activates the alarm. It all happens in less than a second.

Indoor

MotionCam

Wireless motion detector with an integrated photo camera to verify alarms

- Photo only in case of alarm
- Illumination for photos in the dark
- Photo verification in 9 seconds
- Up to 4 years of operation from battery
- Pet immunity

MotionProtect Plus

Wireless motion detector with additional microwave sensor

- Does not react to a heater, fireplace, or conditioner
- Up to 5 years of operation from battery
- Up to 1,700 m of two-way radio communication
- Pet immunity

Outdoor

DualCurtain Outdoor

Wireless motion detector to guard property perimeter

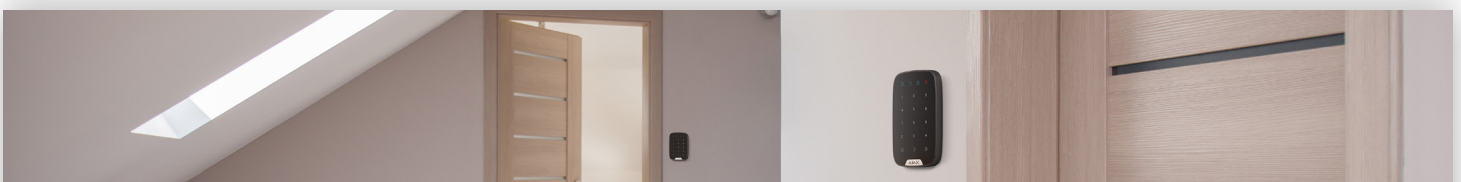

- Up to 30 m of bidirectional detection range
- 6° detection zone
- Near area detection
- Pet immunity
- Anti-masking system

MotionCam Outdoor

Wireless motion detector with an integrated photo camera to verify alarms

- Three-stage digital algorithm to prevent false alarms
- HDR photo camera
- Anti-masking system
- Pet immunity

Control devices and panic buttons

Aside from mobile apps, users can manage the Ajax security system with keyfobs and keypads. And we designed them to be as convenient as possible. Protection against accidental clicks, command execution confirmation, and stylish design — all this turns a simple alarm keyfob into a gadget you want to use.

KeyPad Plus

Wireless touch keypad supporting encrypted contactless cards and key fobs

- Blocks attempts to guess the passcode
- Duress code support
- Security mode indication
- Up to 4.5 years of operation from battery

Button Wireless panic/medical/scenario button

- Absolute protection against accidental presses
- Protection from dust and splashes
- Command execution confirmation
- Up to 5 years of operation from battery
